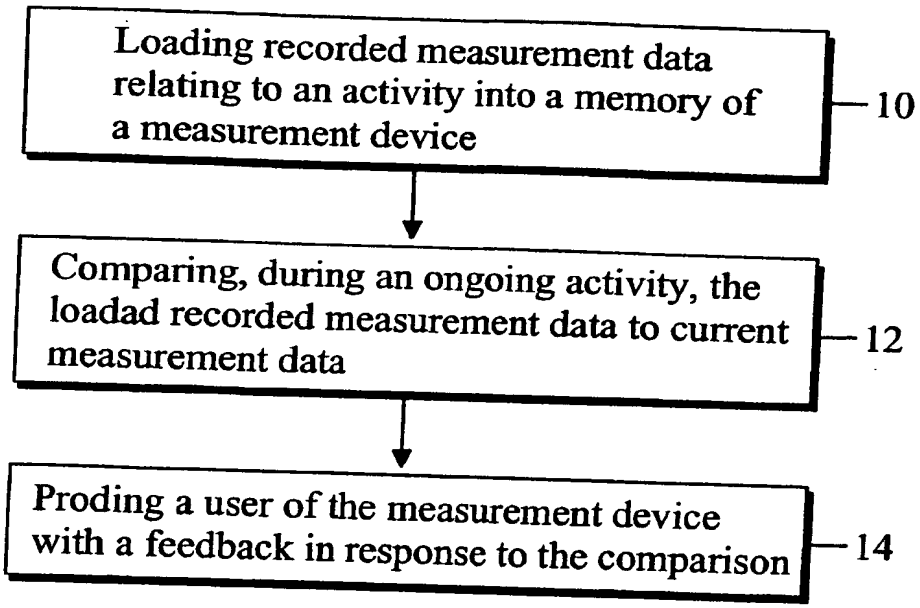
(54) Title: METHOD, MEASUREMENT DEVICE, COMPUTER PROGRAM AND SYSTEM FOR PROVIDING A USER WITH FEEDBACK DURING AN ACTIVITY



(57) Abstract: The invention discloses a method, measurement device, computer program and system for tranmitting and comparing a recorded activity to an ongoing activity. In the method previously recorded measurement data relating to an activity is loaded into a memory of the measurement device. The loaded recorded measurement data in the memory is compared, during an ongoing activity, to current measurement data measured with the measurement device; and a user of the measurement device is provided with a feedback in response to the comparison.
